TIE-BREAKING PROCEDURES (Volleyball Canada)

If two or more teams are tied at the end of the preliminary round, the following criteria will be applied, in order:

- a. the team having the best ratio of won/lost matches, considering matches between the tied teams, will be ranked higher;
- b. The team having the best ratio of won/lost sets, considering matches played between the tied teams, will be ranked higher;
- c. The team having the best ratio of won/lost sets, considering all matches of the round, will be ranked higher;
- d. The team having the best ratio of points for/against, considering sets played between the tied teams, will be ranked higher;
- e. The team having the best ratio of points for/against, considering all sets played during the round, will be ranked higher;
- f. As determined by the Organizing Committee (e.g. extra set, toss of coin, etc.)

When you apply this rule to break a tie you should follow this sequence:

1. When two teams are tied, the tie-breaking criteria are applied one after the other until the tie has been broken.
2. When three or more teams are tied, the tie-breaking criteria are applied one after the other until all the tied teams have been ranked.

NOTE: This means that if there is a tie among teams X, Y and Z and criteria “b” is able to determine X as first, Y as second and Z as third, then no further criteria are to be used. The tie is broken.

However, if criteria ‘b’ determines the seeding/ranking of any of the tied teams, then the remaining teams which are still tied will use criteria ‘c’ and so on to determine their seeding/ranking. Do not start at ‘a’ again. Continue through the sequence of criteria using the results of teams x, y, and z for criteria ‘d’.
